RECORD OF COMMUNICATION	Phone call <u>X</u> Discussion Conference__ Other:	
TO: Ellison Stollenwerck La Quinta (214) 492-6820	FROM: Joyce M. Ackerman EPA, Region VIII 	Date: 2/14/07
		Time:
<p>Summary of Conversation: I called Ellison Stollenwerck to discuss the upcoming cleanup of the Vermiculite Intermountain site on the La Quinta property. She said that La Quinta had terminated its lease with the Ampco parking lot company. She said that parking on the site was currently being run by Richard Gordon who will assume ownership of the property in April. She said she would call Richard Gordon and tell him that he will have to terminate any parking on the property and asked me for a date for that to take place. I said that March 5, 2007, would be the date to terminate parking. I asked her about the little parking booth at the rear of the site, and she said its removal would need to be handled by Richard Gordon.</p> <p>We discussed the parking situation for the Artistic Printing employees and decided that safety considerations would necessitate their parking somewhere else during the cleanup.</p>
